Profession Summary

Final-year B.Tech CSE student at IIIT Kota with hands-on experience in Java, Kotlin, and Android development. Experienced in building production-ready applications, integrating REST APIs, and developing reusable open-source libraries. Strong understanding of data structures, algorithms, object-oriented programming, and software development principles.

Education

Indian Institute of Information Technology, Kota

Aug 2023 – June 2027

- **B.Tech in Computer Science (CGPA: 7.07/10)**
- **Coursework:** Data Structures & Algorithms, Operating Systems, Database Management Systems, Object-Oriented Programming, Machine Learning, Artificial Intelligence, Computer Networks, System Design (Basics).

Work Experience

Sanatan Swar

Certificate

Dec 2025 – Apr 2026

Android Development Intern

Remote

- Developed and published an Android library to **JitPack**, enabling easy integration and reuse across projects while following modular and clean architecture practices.
- Built Android features using Kotlin, Jetpack Compose, MVVM, Retrofit, Room, and Hilt, following clean and modular architecture.
- Debugged and optimized Android components, reducing app crashes by 25% and improving overall user experience across different devices.
- Experienced in deploying, publishing, and maintaining production applications with real users on Google Play Store (4+ Apps).

Projects

Issue Spotter — Team Project

Source Code

Tech : Android Studio, Kotlin, Jetpack Compose, Google Map API, MVVM Architecture, Supabase

- Developed a full-stack issue reporting platform with secure authentication, image uploads, and location-based issue reporting.
- Integrated a scalable backend using Supabase Authentication, Database, and Storage for secure data and media management.
- Integrated Google Maps SDK to visualize and manage location-based issue reports.

Billing-Library (Monetization Kit) — Open Source

Source Code

Tech : Android Studio, Android SDK, Kotlin, Jetpack Compose, XML, AdMob, Meta Ads, Jitpack.

- Developed a reusable Android monetization library supporting AdMob, Meta Ads, In-App features.
- Implemented ad waterfall fallback logic with lifecycle-aware handling to ensure reliable and consistent ad delivery.
- Designed a modular SDK architecture with easy integration into Android(Jetpack Compose and XML) applications.

Shayari Shaala

Play Store(2k+ downloads)

Source Code

Tech : Kotlin, Jetpack Compose, Gemini AI, Material 3, Offline-First Architecture, Caching, Local Storage

- Built and published a production Android application with 2k+ downloads and 6k+ categorized content items.
- Integrated **Gemini AI for real-time Shayari generation**, enabling dynamic, personalized content creation.
- Optimized application performance using offline-first architecture, and efficient state management for a seamless user experience.

Technical Skills

Languages: Java, Kotlin, C++, SQL, Python, JavaScript.

Android: Jetpack Compose, XML, MVVM, ViewModel, Coroutines, Flow, Retrofit, Room, Hilt, REST APIs.

Databases: Firebase, Supabase, MySQL, MongoDB.

Tools: Git, GitHub, Android Studio, Postman, VS Code, Google Play Console.

Honours and Awards

- Won the App Innovation Hackathon, organized by Amity University, Noida, for developing the impactful application.
- District Topper – 98.25% in MP Board Class X (2020); State Top-10.
- Secured 14th Rank in the **SRMC Mathematics** Competition organized by **IIT Bombay & IIT Madras**. [View Result](#)

Achievements

- Qualified **JEE Advanced 2023** with a **Category Rank of 3399**.
- 380+ DSA problems solved on GeeksforGeeks ([ID : MOHIT ANURAGI](#)) | Top-40 institute coding rank.
- Certified in Ethical Hacking & Penetration Testing (CDAC Noida) with practical security testing experience. [view](#)
