Education

Govt. H.S. Excellence School No. 1, Chhatarpur

July 2019 – May 2020

Class X — 98.25% (District Topper | Top 10 State Rank)

Govt Subhash H.S. Excellence School, Shivaji Nagar Bhopal

July 2021 – May 2022

Class XII — 86.80%

Indian Institute of Information Technology, Kota

Aug 2023 – June 2027

- *B.Tech in Computer Science* (CGPA: 7.07/10)
- **Coursework:** Data Structures & Algorithms, Operating Systems, Database Management Systems, Object-Oriented Programming, Machine Learning, Artificial Intelligence, Computer Networks, System Design (Basics).

Work Experience

Sanatan Swar

Certificate

Dec 2025 – Apr 2026

Android Development Intern

Remote

- Engineered a reusable JitPack monetization library (AdMob, Meta Ads), accelerating deployment across 3 internal Android projects.
- Built Android features using Kotlin, Jetpack Compose, MVVM, Retrofit, Room, and Hilt, following clean and modular architecture.
- Converted Figma designs into Jetpack Compose screens and worked closely with the team to deliver production-ready UI.
- Fixed bugs, improved app performance, and maintained stability across different Android devices.
- Experienced in deploying, publishing, and maintaining production applications with real users on Google Play Store(4+ Apps).
- Led a CSE HOD-sponsored assistive technology project at IIIT Kota using ML Kit and efficient data-processing pipelines.

Projects

Neural OCR—Personal Project

Live Link

Source Code

Tech : Python, NumPy, HTML, CSS, Vanilla JavaScript.

- Built a Multi-Layer Perceptron (MLP) neural network entirely from scratch using Python and NumPy, implementing forward/back-propagation without relying on ML frameworks.
- Developed a zero-dependency web frontend with a custom drawing canvas for real-time digit recognition and dynamic in-browser model training.
- Created a lightweight Python REST API to process canvas image data into input matrices and manage real-time model weight serialization.

Shayari Shaala

Play Store(2k+ downloads)

Source Code

Tech : Kotlin, Jetpack Compose, Gemini AI, Material 3, Offline-First Architecture, Caching, Local Storage

- Built and published a production Android application with 2K+ downloads and 6K+ categorized Shayari and Quotes.
- Integrated **Gemini AI** to generate personalized Shayari with proper loading, success, and error state handling.
- Implemented offline access for built-in Shayari content and used caching to improve content loading.
- Continuously improved the application by fixing bugs, adding features, and incorporating user feedback after release.

Technical Skills

Languages: Kotlin, Java, Python, C++, SQL

Libraries & Frameworks: NumPy, Pandas, Matplotlib, Jetpack Compose, Coroutines, Flow, Hilt, Room, Retrofit

Databases: SQL, MongoDB, Firebase, Supabase.

Tools & AI Workflows: Git, GitHub, Android Studio, VS Code, Postman, Cursor, GitHub Copilot, ChatGPT.

Honours and Awards

- Won the App Innovation Hackathon, organized by Amity University, Noida, for developing the impactful application.
- Secured 14th Rank in the SRMC Mathematics Competition organized by IIT Bombay & IIT Madras. [View Result](#)

Achievements

- Qualified JEE Advanced 2023 with a Category Rank of 3399.
- Solved 500+ Questions on LeetCode ([ID: MOHIT_ANURAGI](#)) and 1400+ contest rating.
- 380+ DSA problems solved on GeeksforGeeks ([ID : MOHIT_ANURAGI](#)) | Top-40 institute coding rank.
- Certified in Ethical Hacking and Penetration Testing from CDAC Noida, with hands-on exposure to vulnerability assessment and security fundamentals. [View Certificate](#)
